

Peter Kenyon and Engaging the Community

On June 2nd Visions North was honoured to have Peter Kenyon visit La Ronge and present a workshop on building on the positives in your community and presenting it as a destination that people not only want to visit but also live in. Besides sharing the characteristics of successful communities Peter was able to give real examples of how small or down and out communities that practiced these characteristics were now thriving.

The event was well attended by 26 people representing organizations in the North as well as private citizens. They were all impressed by Peter to the point of hoping we'd bring him back for a full day workshop.

Great Job Peter!
